

Tod Schattgen

I have served on the USC Boards for the past 3 years. I am now running for the Vice President of the USC. The USC Board is currently facing a series of decisions that will affect the future of our club. The threats to our clubs future are both, internal and external, financial and ethical. My goal is to work with the membership and the board of directors to make the decisions that will ensure that the Unites Sportsmen's Club remains a robust, costs effective asset to the club members and a good member of the community in which we are located.

I retired after 23 years of service from National Oceanic and Atmospheric Administration. I have three grown children and my wife and I currently reside in New Bloomfield. Retirement has allowed me the time and the resources to become involved in my community. I am an active member the Providence Baptist Church in New Bloomfield, and serve as a deacon. I am also a Court Appointed Special Assistant to Callaway County Children in foster care. I served three terms on the New Bloomfield R-III Board of Education, one as president.

I have significant experience with all safety aspects associated with shooting activities both as a civilian and a member of the military. I have been an active member of this Club for 10 years. I am a member of the Trap and Skeet Committee and contribute my time and efforts in facility upgrades, trap machine maintenance, and coordination of shooting activities.

I am very proud of the facilities this club offers our members. This club provides a variety of activities for our members at the most reasonable cost of any club that I have visited. Volunteers are the key in making this facility what it has become.

As Vice President I will dutifully apply my skills and experience, work with the other board members, range chairman and club members to make the USC the best shooting sports facility in central Missouri.
