

I have been a member of United Sportsman club for about 18 years. I became a member initially to help instruct 4-H youth muzzle-loading and then ran for the board to look out for the interest of youth shooting. I have served several terms on the board of directors. As youth oriented, I have an interest in all the ranges and do not prioritize one range/discipline over another. I am very impressed with the clubs progress with youth sports. We currently have members who also are part of high school trap shotgun groups using our club as well as a college shotgun. Cole county 4-H shooting sports calls USC home. I am the range chairman of the Muzzleloader and Utility Range. And yes, I am a member of the NRA. I am proud to be your board member and hope to continue for the next 3 years. Regardless if you elect me to continue serving you, I will be part of USC for years to come, stop by if you see me and say hi.
